

# Ticketing Software for Farm Attractions

DigiTickets is a proactive, innovative ticketing and EPOS solution for attractions and events. Providing our services since 2008 we've been proud to work with a wide range of clients from Theme Parks, Historic Houses, Maize Mazes, Zoo and Aquariums and more. We specialise in exceptional support and software to enable a seamless ticketing process. We are proud to work with many Farm Attractions supporting their ticketing and EPOS needs. We help support the whole ticketing process before, during and after the customers visit.

## Features

DigiTickets provides a cutting edge, online and EPOS software helping Farm Attractions sell tickets and manage their business. Key features include:

- ◆ Event Based Ticketing
- ◆ Sale Limits and Capacity Management
- ◆ Online Shop Facility
- ◆ Memberships
- ◆ Purchase Suggestions and Upsells

### Tulleys Farm

"DigiTickets helped build our ticket system. They are never short of giving us a helping hand, answering questions and ensuring it is all correct before we go live. We find everything DigiTickets do amazing however what really stands out is when we do have an issue it is resolved very quickly. We feel DigiTickets go above and beyond helping us with anything we need"

### Lathcoats Farm

"DigiTickets have allowed us to offer services which we have never been able to before, this includes pre-ordering collections for afternoon teas and offering events which were restricted or limited when using other platforms. I would say the support is second to none – the phone is always answered within a minute and I am yet to call without getting an issue resolved there and then."

## Proudly working with...
